

November 2005

Dear Karl, Scott, Rick, John, Pate et al,

My Great Room passed the biggest test yet on Thanksgiving when I had 18 for dinner. All the cooks rave about how workable the kitchen is and you never have to miss the party!

Big hits are the soapstone counters, the two separated pinks & the good light from the Solar tube & greenhouse windows. It's very efficient.

I love the open, airy living area and the soft glow of the lighting. And I love to tell people what a pleasure it was to work with all of you at Yankee from beginning to end.

The flowers were a graceful finishing touch to what was a very pleasant experience for me. Thank you for your fine workmanship & cooperation. Alice Fitzpatrick
